English (Fluent)
Hindi

PROJECTS

Personal Project Showcase
Asmit's Portfolio | Prototype   Feb 2025 - Present
Next.js   TypeScript   Framer Motion

Creating a personal portfolio that represents my skills, projects and creativity. It gives the users an engaging experience and answers such common questions , who am I? and what I do? for an instance.

Full-Stack Web App
Cypher Notes Plus | Live Link   Prototype
Next.js   TypeScript   Basics of Backend   Framer Motion   Mongo DB

A full-stack notes taking application that provides a platform for the Users to write down their thoughts and ideas while providing security to the User's accounts. It offers a seamless experience for the Users to manage their notes effectively.

Frontend Landing Page
Luxury Pulse | Live Link   Prototype
JavaScript   GSAP   HTML   CSS

Redesigned a luxury marketplace website "Luxury Pulse" (November 2024) that was lacking in concepts such as providing Users with information in a correct way (UI) or giving Users a hard time to navigate through their website (UX); with an intent to counter issues while keeping the originality and aesthetics.

Frontend Landing Page
Obyss Agency | Live Link
JavaScript   GSAP   HTML   CSS

Recreated the original design of the Obyss Design Agency's Portfolio (January 2024) to get a better understanding about the animations by using GSAP and designs.

EDUCATION

Frontend Domination Course   Nov, 2023 - April, 2024
by Sheryians Coding School

Learned about Designing & Animations using GSAP and Framer Motion and a new perspective towards the designing & development by being introduced to UI/UX and React JS and such libraries

Guru Harkrishan Public School   Passed Out in 2021
India Gate, New Delhi

Completed my high school from GHPS, but the result was not generated from examination due to Global Pandemic Restrictions.
